

### **Greenhouse Megastore Warranty is based on the manufactures current warranty**

1. We warrant that the Product retains it's light transmission. This means that the sheets will have a light transmission after 10 years which is no more than 6% lower than at the time of delivery.
2. The Product retains it's rigidity. This means that sheets will have a modulus of elasticity of < 55 MPa after 10 years.
3. The Product retains its strength and does not become brittle. This means that the tensile stress at yield is < 55 MPa after 10 years.

Greenhouse Megastore shall replace faulty Products, as detailed hereinunder, with no additional charge to the Customer, if the following conditions are met:

- 1) Notification to Greenhouse Megastore as to the faulty Products was made during a period of 10 years from the purchase date of the faulty Products (hereinafter "the Warranty Period") and without delay.
- 2) The Invoice issued to the faulty Products is presented to Greenhouse Megastore, showing the name and address of the Customer, the purchase date and a detailed description of the Products purchased, including Invoice number.
- 3) The fault in the Products had occurred despite full and complete, demonstrable adherence to Greenhouse Megastore instructions with regard to the Products, by the Customer, including:
  - a) The product must be stored, transported fabricated and installed or used in a manner suited to the material. The installation must comply with the Standard Plastics guidelines for warranty to be valid.
  - b) The product must not be adversely affected by connecting, fixing and/or sealing elements.
  - c) The product must be protected against the adverse influences of chemicals.
  - d) The product must not be thermoformed.
  - e) The Product may only be exposed to the weather on the non UVI side.
  - f) The above conditions being met, drilled or riveted sheets are covered by the 10 year warranty on weather resistance only.
